Agenda
11:30am    Registration and Networking
Noon       Meeting and Lunch
12:30pm    Key Note Presentation
1:30pm     Conclusion of Meeting

Topic for this month:
A REVIEW OF THE FIRE AT NOTRE DAME CATHEDRAL

Description:
The fire in the iconic Notre Dame cathedral in Paris on April 15, 2019 stunned the world! How could this have happened? What we know about the sequence of events, the cause, other factors that contributed to the damage, and what this devastating fire has taught us.

Presented by:
Debbie Freeland, Arthur J. Gallagher & Co.

Bio: Debbie Freeland has been a fire protection consultant for over 30 years, more than 20 with Gallagher, the world’s 4th largest insurance broker. She is a long term member and past chair of NFPA’s committee on Protection of Cultural Resources, responsible for NFPA 909 & 914, protection of museums, libraries, places of worship, and historic buildings, and is editor of that section of the NFPA handbook. She has worked with museums, churches, libraries and cultural institutions of all sizes in developing fire protection alternatives and programs to reduce their potential risk, and is at the forefront of developing new standards to address the protection of historic structures while preserving their historic fabric. Debbie has spoken at several American Association of Museums conferences, the Smithsonian National conferences on Cultural Property Protection, and at seminars on protection of collections, museums and historic buildings in Italy, Slovenia, Great Britain, Ireland, Scotland, Austria, and several other European countries.
