11:30am

Luminarias Restaurant
3500 W. Ramona Blvd.
Monterey Park, CA 91754
(Located behind the Monterey Hill Restaurant)

The Southern California Chapter of SFPE is hosting its monthly meeting. Please join us for networking and technical information. Visit www.sfpesocal.org for more information and to register on-line.

Agenda
11:30am Registration and Networking
Noon Meeting and Lunch
12:30pm Key Note Presentation
1:30pm Conclusion of Meeting

Alternative to Structural Spray Applied Fire Proofing
James will be presenting the NFPA 13 (2016) code sections requiring air vents on all wet pipe fire sprinkler systems. This is now mandatory for all installations in the State of California. James will also be reviewing new product lines available for detection of corrosion on both Wet and Dry fire sprinkler systems.

James McHugh
AGF Manufacturing, Inc.

Although involved with AGF from its inception, Jim McHugh started full time in the sprinkler industry directly after completing college in the early 90's. Over the years Jim has been involved in all aspects of AGF Manufacturing Inc. including marketing, production, operations, and of course sales. In addition to his managerial and marketing duties Jim has also been instrumental in the development of a number of new and innovative AGF Patented products. In addition to being an active member of NFPA, NFSA, AFSA, and SFPE Jim has been a guest speaker at annual RIMS (Risk Insurance Management Society), BOMA (Building Owners and Managers Association), SFPE, ASCET, and ASPE meetings.
